RESPONSE TO NOTICE TO FILE APPLICATION PAPERS

Dear Sir:

This submission is responsive to the Notice to File Application Papers mailed August 5, 2002. The Notice requested that a substitute specification be supplied that meets the requirements of 37 CFR § 1.52, namely that the application is legibly typed on durable white paper, and that the text have sufficient clarity and contrast for reproduction. In particular, page 25 was considered not to be in compliance with 37 CFR § 1.52(a). I have reviewed the application submitted for filing in the above identified application and could find no fault with the application as filed. In particular, I have reviewed page 25 and do not find any defects. However, in an attempt to comply with the Notice, I hereby submit a substitute specification that

is a darkened copy of the application as filed, which may provide greater contrast and improve its reproduction quality. No new matter is added with this substitution specification.

The Notice also considered that the earlier submitted replacement drawings were not acceptable because the submission lacked a statement that the replacement sheets contained no new matter. Six (6) sheets of replacement figures 1 through 6 are being resubmitted with this response. I hereby confirm that the replacement sheets do not include any new matter.

I also petition for a one month extension of time to respond to this Notice. A check in the amount of \$55.00 accompanies this Response. No other fees are due at this time. If there are any questions, please call the undersigned at the telephone number indicated below.

Respectfully submitted,

Date: 11/05/2002
